Tasks for this week:

Continue integrating and testing QPSU system

Write up a brief status report and hand in a paper copy by Wednesday this week. This is to help me keep track of what everyone is doing.

Project Status: ONE Page, one side. Your Name ________________________

Your piece(s) of the system.

A photograph or sketch.

A brief description of how it works.

Current status.

We will continue testing through Thursday of Finals Week, so there is still time to work. The Project Status report is not a final report on the finished project, it’s just an honest statement of current status.
