Review Sessions & TA Office Hours

- Strongly encouraged to attend
- If having trouble, use this resource
- Email TA in advance of difficult topics
- Can schedule to meet outside of stated OH
- Office hours: M 5-6, T 11-12, W 5-6, F 11-12
- Review Sessions: M 4-5, T 10-11
- In FAB 60-10 (Tektronix Lab) or in nearby classroom

Exam 1

- Next Wednesday (January 29)
- 100 minutes
- Will cover
  - Fundamentals of signals
  - Fundamentals of systems
  - Discrete-time convolution sum
  - Continuous-time convolution integral (today and Monday)
- Similar to the exam from last year
- Two single-sided sheets of notes allowed

Exam 1

- Next Wednesday (January 29)
- 100 minutes
- Will cover
  - Fundamentals of signals
  - Fundamentals of systems
  - Discrete-time convolution sum
  - Continuous-time convolution integral (today and Monday)
- Similar to the exam from last year
- Two single-sided sheets of notes allowed

Lecture Overview

Last Time

- Begin continuous-time convolution

This Time

- Finish continuous-time convolution
