Lecture Overview

Last Time
• Finish sampling
  – Aliasing
  – DT processing of CT signals

This Time
• Begin communications
  – DT processing of CT signals
  – Aliasing
  – Finish sampling

Next Time
• Continue communications
  • Asynchronous AM
  • Time & frequency division multiplexing
  • Pulse amplitude modulation
  • Pulse frequency modulation
  • Phase/Frequency modulation
  • Pulse amplitude modulation
  • Time & frequency division multiplexing
  • Asynchronous AM
  • Continue communications

Miscellaneous
• Monday is a holiday - no lecture
• Homework 7 solutions posted

J. McNames Portland State University ECE 223 Spring 2004 Lecture 16
