     “Native Tribal Stakeholders and the Portland Harbor Cleanup”

3/14  Travis Williams, Willamette Riverkeepers
     “Protecting the Public Trust in the Portland Harbor Cleanup”

COURSE REQUIREMENTS:

1 Credit hour

Students must attend a total of **eight** seminars during the terms. You are encouraged to attend all five of the ESR seminars but you must attend **at least four from the ESR schedule**. The remaining three or four seminars are to be selected from seminars at PSU or other educational or scientific institutions that have some bearing on environmental issues or earth sciences.

For each seminar you attend, you must write down a **question** you would like to ask of the speaker. The question should show that you have listened and learned something from the speaker’s presentation. Turn the question at the end of each ESR seminar on a sheet with your name. This will also serve as a record of your **attendance**.

For seminars outside the ESR series, submit questions either on paper at the next ESR seminar or electronically to the instructor at:

fishw@cecs.pdx.edu

To obtain credit for the course you must turn in a sheet (on paper or electronically) by the last day of the term in which you list all seminars attended.
