In the interest of space, this TAB only contains the first page of each conference publication. All papers were peer reviewed. Journal publications and book chapter publications are provided in TAB H and J respectively.

A notebook containing each conference publication in its entirety is available for review in the ECE Department office.

The conference paper is currently undergoing peer review:

B. Wang, M. Chrzanowska-Jeske, and G. Greenwood, "Using Evolutionary Algorithms for Non-slicing Floorplans With Soft Modules", (submitted to the Design Automation & Test in Europe Conference)
