Objective

A position on an active team interested in open-source systems administration.

Education

B.S., Computer Science
Minor, Applied Linguistics
Portland State University, Portland, OR
Expected graduation: Spring 2012

Relevant Experience

Computer Action Team

As a Junior System Admin for the Computer Action Team (CAT), I am responsible for deploying and configuring user-access hosts, installing software needed for graduate-level research, and configuring site-wide services.
Relevant Because: Experience automating configuration of unix and linux systems.

Linux Enthusiast

I have run various Linux distributions on my personal computers for about a decade. Starting with Slackware in 2001, then Gentoo in 2004, and now Arch since 2007.
Relevant Because: Understanding of linux internals.

Phi Delta Theta

As the President of a values-based non-profit organization founded on the three cardinal principles of friendship, sound learning, and moral rectitude, I help fellow college undergraduates grow into professional gentlemen.
Relevant Because: Leading groups and overseeing committees.

Professional Activities

Linux/Unix System Administrator, Computer Action Team, Summer 2010 - Present
President, Phi Delta Theta, Oregon Epsilon, Fall 2010 - Present
Treasurer, Association for Computing Machinery, Spring 2010 - Present
