Homework 1: Commentary on Searle paper

Due Thursday, September 28.

Read the article *Minds, Brains, and Programs* by John Searle (there is a link to a pdf version on the class web page). Write a 500- to 1000-word commentary, explaining what you thought of the article, what you agree with (if anything), what you disagree with (if anything), and why. Hand in a computer-formatted, spell-checked copy of your commentary.
