• Begin literature reviews: due Wednesday, February 15
  – List which data bases you searched
  – How many titles appeared relevant?
  – How many abstracts were still relevant?
  – How many papers did you need to pull?
  – How does each paper obtained relate to your paper? Did they
    solve the same problem, or a related problem? If they solved
    the same problem, how does their methodology differ?
  – Expect 5–20 papers for each
  – Typically 2–3 sentences per paper
