

PSU/CS Capstone Team Evaluation

Team Member _____

Team: _____

You: _____

Describe this team member’s role(s) in the project:

Rate this team member (most people should be “Good” – reserve “Excellent” for those that truly are):

	Unsatisfactory	Marginal	Acceptable	Good	Excellent
Technical Skill (mastery of the skills involved in <i>their</i> role(s) with the project – this may be programming, data base design, management, requirements elicitation, etc.)					
Work Ethic (cheerfully performing their tasks without excessive complaining, work avoidance, etc.)					
Communication Skills (able to both understand others’ points as well as effectively getting their points across)					
Cooperation (willing to be flexible, share knowledge – interested in what they can do to make the project go smoothly)					
Initiative (seeing what needs to be done and doing it without someone asking them to)					
Team Focus (view the project as a team effort - not just thinking exclusively about their part)					
Contribution (assess this person’s overall contribution to the project)					

Would you work with this person again? If not, why?

General comments about this team member:
