# Exercise 7: Find Two Graphics

Scholarship Skills, Winter 2020

Andrew Black

Due in class on Wednesday, 19 February 2020

---

For this exercise, you should find two graphical representations of ideas. The first is one that you find enlightening, and the second is one that you find does a *poor job* of presenting the idea that it is intended to explain.

For each graphic:

1. State the source of the graphic.
2. Include a copy of the graphic in what you submit.
3. Explain the idea you think the author was trying to convey.
4. Explain why you think the graphic is a good or bad representation of the idea.

Bring one copy of your submission to class on Wednesday 19th February. You will be asked to discuss at least one of your graphics in class.

Please *also* upload a copy to Piazza. I'll use these copies to project, since the document camera is such low quality.
